

Reading Back to Basics

IS READING DIFFICULT FOR YOUR CHILD?

Ages 4-5

Does he/she struggle with:

- Understanding sounds in words?
- Recognizing letters?
- Understanding that letters correspond to sounds?
- Rhyming?
- Following or telling a story?

Ages 6-11

Does he/she struggle with:

- Understanding syllables and sounds in words?
- Sounding out words?
- Understanding what he/she reads?
- Remembering what is said?
- Following or telling a story?

Two unique programs are being presented, one for children 4–5 years old and another for children aged 6–11. Both focus on the underlying language skills needed to be able to read. Children will learn skills that will either prepare them to read or improve their existing reading skills. Both programs will help your child be better prepared for school and will begin to build a motivation and love for reading. Both Back to Basics programs meet twice weekly for 45 minutes per session.
